Title : BCM50 Rls.3.0 BCM200/400 Rls.4.0
and BCM450 Rls.1.0 Sales

Vendors : Nortel

Version : DEMO

NO.1 The BCM450 Rls. 1.0 base unit supports 100 IP sets. How many IP sets does the BCM450

support with the Capacity Expansion Card installed?

A.100

B.200

C.300

D.450

Correct:C

NO.2 A customer's BCM450 Rls. 1.0 system will be configured with 85 IP telephones and voicemail.

This system will also use over 30 digital telephones. What is required to provide sufficient resources for this customer?

A.a 2/6 split

B.an expansion chassis

C.additional processor expansion cards (PECs)

D.a capacity expansion card (CEC)

Correct:D

NO.3 A new customer already has an ADSL modem supplied by the ISP. The customer requires:

remote access for management a firewall IP telephony VPN Branch Tunneling Which BCM50 model will best address the customer's requirements?

A.BCM50

B.BCM50a

C.BCM50e

D.BCM50i

Correct:C

NO.4 If a 3/5 channel split is configured, which statement about the DS30 resources is true?

A.DS30 2 cannot be used by any module.

B.DS30 7 can be used by any module.

C.DS30 6 and DS30 7 cannot be used by any module.

D.DS30 6 cannot be used by any modules that require two busses.

Correct:D

NO.5 A company plans to implement a BCM solution with BCM Voice Messaging (CallPilot) and

Contact Center enabled. They are in the process of setting up a contact center. Which two items

should be considered when configuring the contact center? (Choose two.)

- A.the number of IP trunks available
- B.the number of DSP resources available
- C.the number of Virtual Device Interface (VDI) channels available
- D.the number of voice ports available

Correct:B D

NO.6 A customer has a BCM400 that is performing all IPSec processing using software.

They are

concerned about overloading the BCM400 processor with IPSec traffic processing. What is the

maximum number of simultaneous tunnels?

- A.12 tunnels
- B.16 tunnels
- C.24 tunnels
- D.30 tunnels

Correct:B

NO.7 A customer wants to purchase a BCM50 solution. They need to determine both the number and

type of Media Bay Modules (MBMs) to purchase that will support their extension requirements.

They require support for six analog trunks, 14 digital extensions, two fax machines, and two single-line phones, and they may eventually add an analog device. Which two MBMs will meet

these requirements? (Choose two.)

- A.one ASM 4 MBM
- B.one ASM 8 MBM
- C.one DSM 16 MBM
- D.one 8x16 Combo MBM

Correct:B D

NO.8 A network administrator needs to calculate the maximum number of voicemail ports required on

their BCM 450 RIs 1.0 system. Which factor should be considered when making this determination?

- A.The range is 0 to 48 ports with the Capacity Expansion Card installed.
- B.The range is 0 to 32 ports without the Capacity Expansion Card installed.
- C.Each voicemail port requires two media channel resources.
- D.Each voicemail port requires two signaling channel resources.

Correct:B

NO.9 Your customer wants to purchase a BCM solution. Their requirements include: two Media Bay Modules (MBMs) with the capability to add an expansion unit redundant power supplies RAID 1 mirrored hard disks Which configuration meets these requirements?

- A.the BCM50e configuration
- B.the BCM 200 Redundant Feature Option (RFO) configuration
- C.the BCM 400 RFO configuration
- D.the BCM 450 RIs. 1.0 Standard configuration
- E.the BCM 400 Standard configuration

Correct:C

NO.10 Which component or feature is unique to the BCM450 RIs. 1.0 platform?

- A.base function tray
- B.eight fax ports
- C.music source
- D.two LAN ports

Correct:B
